Airport Land Transaction Concluded

Acting on what some consider the most promising catalyst for future Bethel growth, the Board of Selectmen met in special session at 5 p. m., Tuesday, in the Town Office Meeting Room to resolve a decade-long-of-way wording question before exchanging deeds with a representative of L. E. Davis Lumber Company, accepting for the Town at no cost, property adjacent to Col. Dyke Field to be used for future airport use. Selectman Danny Davis, acting as president of L. E. Davis Lumber Company, presented the deed to the Board adding about 40 acres to the airport. This transaction concludes activities begun 25 years ago as a no-cost land option to provide necessary land for airport development.

Realizing that the terms of the 1958 option regarding rights of way to remaining portions of the Lumber Company land lacked clarity, the Selectmen had drafted a special deed that resolved the doubts. The Board approved the special deed, offering it to Mr. Davis at the same time the deed for the optioned land was presented to the Town. Board Chairman Arlan Jodrey, on behalf of the Selectmen, lauded three generations of Davis' for their vision and commitment to the planned growth of Bethel. Leslie Davis had a vision of an improved airport facility serving the Bethel area in the late 1940's.

Northwest Bethel - Rotary Club News

— Charlie Gibson, Corres. —

We at last got some much needed rain. Cannot understand how it could be so dry after the wet, wet spring we had. From reading the paper guess that actually we have been lucky last winter and, so far this summer with our weather. Have not been able to work in the garden this year as I have always enjoyed doing this—miss it. Have been able to pick some raspberries and am in hopes that I can pick the cukes and string beans when they come along.

The days are already getting shorter and no time to get all the work done.

Ben Gordon had a get together cook-out at his camp on the mountain. Although the weather was threatening the worst rain held off until mid-afternoon. Frank and Sid Murphy and Elaine Hutchins cooked onions, hot dogs, hamburgs, and rolls continuously from noon until we left at mid-afternoon, maybe longer. People brought salads and desserts and also there were plenty of chips and drinks.

Ben with the help of Charlie and Ruth Mason had an enjoyable time for all who attended. From our road were Mr. and Mrs. Frank Murphy, Mr. and Mrs. Chuckie Mason and three children, Mrs. Elaine Hutchins and two girls, Mr. and Mrs. Frank Gibson and George, Leslie Lapham, Mr. and Mrs. Ernest Angevine, Mr. and Mrs. Steve Anderson and two boys, Mr. and Mrs. Joe Shimamura, Mr. Mrs. Dick Angevine, Tim, Kristy, and Tim Kersey, Melinda Mason. The oldest couple present were Mr. and Mrs. Alanson Cummings, West Bethel, who are 85 and 81, and married 62 years. Others attending: Betty Blake, Christine Greenleaf, Mr. and Mrs. Pat Murphy, Mr. and Mrs. Harlan Hutchins, Mr. and Mrs. Ed Vachon, Bethel; Elaine McTigh, Cleveland, Ohio; Nancie Coan, Washington, D. C.; Sterling Livingstone, Don Demas and Stefan Heise, all of Wakefield, Vt. (I understand they all stayed the night before); Tammy Hanson and two girls, Jerry Paradis, Mr. and Mrs. John Coriveau and two girls, Gilead; Ronald Villeneuve, Berlin, N. H.; Roy Murphy, West Bethel; Billy Murphy, Alameda, Calif.; John Swan, Newry; Lee and Terry Blake and two girls, Augusta. Terry told me it was five years ago two days before that she and Lee had exchanged their wedding vows up there on the mountain. Mr. and Mrs. David Mason and two children, Mr. and Mrs. Scott Mason and two children, Gilead; Mr. and Mrs. Mike Wright, and Dan McGowan and two boys, Bethel; and Dr. Boynton, Monhegan Island. The Doctor had the place made years ago when he was doctoring in Bethel as a hunting camp and Ben thought it would be nice to invite him if they could find him. If any got left out we didn't intend to, but with so many might have missed a few. The youngest there was the daughter of Lee and Terry Blake. Also Jim and Jane Chandler and three children, South Woodstock, and Herb and Marion Lyons and Mr. and Mrs. Earl Merrill, Bryant Pond.

Joe and Gerry Shimamura went to Fort Popham fishing Monday but the fish were not biting.

Evelyn Hilborn, Frances Farman and Kay McAllister, Bryant Pond, took a trip to Camden. They saw Andre the Seal do his performance at Rockport and visited other points of interest. They had lovely weather.

David, Jane Robb, two children and dog, of Guelph, Ont., visited Evelyn Hilborn for three days went to the top of Mt. Washington, the waterslide and other points of interest.

Dick, Sue, Kristy and Tim, just went on a three week trip to visit her uncle, Dick Mills, and family, San Diego, Calif. While there they went to Disneyland and Sea World. They also visited their

The weekly luncheon meeting of the Bethel Rotary Club was held at the Sudbury Inn on July 26. Bill Conary was chairman for this meeting which consisted of a classification talk given by Bill Judson. The talk was very much enjoyed by all those present. Bill Judson's career has been a busy and interesting one including the opportunity to see much of the world while serving in the Navy as a commissioned officer (Lt. Commander). Bill is richly endowed with a very supportive wife, Terri, and two children. The Rotary Club is pleased to have Bill as a new member with a will to serve.

Guests joining with the Club on Tuesday were: Bill Lowther, New Jersey; Chas. Feld, Florida; Joe Reidy, Tynsboro, N. H., and Dr. Om Wadhwa.

Next week's program will be Club Assembly.

daughter, Sheri and husband, Manuel Cordova, Portales, N. M. They were having a heat wave so they stayed in most of the time but did visit Carlsbad Caverns in Carlsbad, N. M. Barbara Baudo drove from her home in New Mexico to visit her brother, Dick, and family, Kristy Angevine had her 18th birthday, July 8.

Evelyn Hilborn, Frances Farman and Kay McAllister went to North Conway, and another day Evelyn took Bertha Flanders to Auburn and Raymond.

Dr. and Mrs. Shaw had a family and birthday party cookout for Jon and Jen's 2nd birthday. Great Grandmother Elsie Davis, grandparents Bob and Ginny Keniston, Uncle David, Jody, Heather and Heath Keniston; Uncle Peter Keniston, Farmington, and Earlton (Lefty) and Mary Keniston. Monday (their birthday) a party was held at which mothers and children came. Mike Davis also came with Kathy and son, Alex. Others were John Patterson, Jamie Glover, Alana Kennagh, Autumn Carlsen, Shilo and Misty Hutchins and Heidi and Heather Keniston. Aunt Jody made Ernie and Bert cakes—characters from Sesame Street.

Sylvia Benson left July 17 with her mother, Alice Foss, sister Judy Small and children, Tim and Kim, all from Hebron, to Flying Bay Point, Freeport. They hired a cottage and had an enjoyable vacation. They had a fun time digging clams. Sunday her son, Teddy, Carol and two children came for dinner and a visit. She came home Tuesday and left again Wednesday to her daughter Sylvia Gardner and sons, Sabatino, and came back Saturday. While there she celebrated her grandson Eric's 10th birthday.

Sunday, Mr. and Mrs. Homer Smith and Andy, had a birthday celebration dinner for their daughter, Christine Bachelder. Others there were Didi and Adam Smith, Donny Bachelder, Doug Smith, Terry Walker, Bruce Smith, Dennis Smith, Lisa Doonen and Fred Adams. Edie made a birthday cake and of course, had ice cream.

John, Sue, Matthew and Amy Laban left Friday for Newcastle, to stay overnight with friends. Saturday they picked up their son, Christopher, who had been working at Sebec Lake for two weeks. Saturday, our son James called to tell us to watch Channel 13 news as he thought Heather would be on T.V. He wasn't sure they would run it. Sure enough, they did. She was in a stroller holding a balloon at Deering Oaks Park Family Day.

Have a nice summer.

Greenwood City

— Mrs. Colista Morgan, Corres. —

Looking from the garden to the mountains, when I should have been picking peas, I had a yearning to be at the top of one. The mountain days brought satisfaction in being a part of nature which is important to anyone's spirit. Although I have looked up to these mountains many times a day, it has been too long since I have stood at the top. So many times I have been on a mountain roof and enjoyed the sun and clouds. From their shoulders I looked to others which are heaven's outposts on earth. I often think of the Psalm "I will lift up mine eyes unto the hills from whence cometh my help." My help comes from the hills themselves. They never fail to give it. It was always fun going unencumbered with only lunch and camera. They stood on their rocky bases, as they were approached. Then came that moment when the crest was finally reached. I tasted the view and the uplifting feeling and all was complete. It was like rediscovering the valleys. Often lakes and swamps and even signs of beaver were seen. Here Nature was in control. To stand on top, any goal seemed possible, any of life's dreams fell away.

Different flowers "take" the mountains as they do the fields and valleys and add beauty to the granite ledges.

I remember how I'd turn all around to catch every inch of the view and I'd sometimes discover a cairn, built a few rocks at a time, a guide post to a climber. I bent again to the pea-picking while I "descended the trail" and my feet were set on the mountain's bare shoulders. One foot ahead of the other, over a few fallen snags, across naked rocks, and often through a brook. So by the time I had finished picking the row of peas I had "reached the parked car" and as always after a mountain climb I was glad to rest my back and again be among the minor treasures of my valley.

The ducks that made a parade on July 4 and decided that my lawn was a good home are now snug and well cared for. The capture would have made a good movie. Their owner arrived in a boat. Two others and a dog were on shore so it was "two by land and one by sea." With a net, a crate, and a swimmer, the youngest, they were transported by sea to their new home.

On Wednesday, I enjoyed a picnic and a few hours with the Delta Kappa Gamma group at the cottage of Mary Lyon on North Pond, Locke Mills.

By radio I heard, "Congress worked half the night." They weren't the only ones. Our farm-ers here did that on Saturday night to get ahead of the report, "Rain". Trucks, tractors, balers

wood Historical Society and made his home here during most of his youth.

Mr. and Mrs. Donald Bennett have returned home from a vacation trip.

Mr. and Mrs. Harry Swan Jr., were on vacation from June 30 to July 17. They, along with son Todd, stayed at the Rowe's camp lot on South Pond for a week and then spent a week at Wilderness camp ground in Norway.

Mr. and Mrs. Ed Kennett of Bird Hill are receiving congratulations on the birth of their first child, a daughter, on July 20. She weighed 7 lbs., 13 1/2 oz. and has been named Annah Ruth.

Mr. and Mrs. John Mills were in Norway Saturday where Mrs. Mills was treated at the hospital for a bruised foot.

The Greenwood Historical Society annual picnic will be held at the home of Mr. and Mrs. Robert Colledge on Wednesday, Aug. 3. Swimming from 5-6 o'clock will be followed by supper, with each family furnishing a salad or casserole.

The cloud cap lifted, and the mists
Dipped close to valley floor
And vanished: They stood
Ageless and vast, in an immen-
sity of stone,
Peak upon peak, until at last I
gazed
On mighty slopes of the moun-
tains there,
I stood in silent reverence.
Then in an awe-tinged voice, I
spoke aloud,
"I will lift mine eyes unto the
hills
From whence cometh my
strength."
And strength was there in every
rocky sinew.

The ducks that made a parade on July 4 and decided that my lawn was a good home are now snug and well cared for. The capture would have made a good movie. Their owner arrived in a boat. Two others and a dog were on shore so it was "two by land and one by sea." With a net, a crate, and a swimmer, the youngest, they were transported by sea to their new home.

On Wednesday, I enjoyed a picnic and a few hours with the Delta Kappa Gamma group at the cottage of Mary Lyon on North Pond, Locke Mills.

STUDENTS FROM USM VISIT GIFTED AND TALENTED PROGRAM AT GOULD

Students from a special course currently taking place at the University of Southern Maine in Portland visited the campus of Gould Academy during the first two weeks of July, to observe Gould's Summer School for gifted and talented students. The visiting class was composed of teachers employed by the United States Department of Defense, who work in dependent schools located on U. S. Military Bases overseas.

The group is attending a Summer Institute for Teachers of gifted and talented children, and methodology for teaching exceptional students in their respective schools.

The 21 teachers and two administrators are employed by the Department of Defense Dependents Schools (D.O.D.D.S.), a public school system serving children of armed forces personnel overseas. The system has 134,000 students attending 271 schools located in 20 countries throughout the world. It employs 8,000 teachers and ranks as the 6th largest American school system. DODDS is headquartered in Alexandria, Va., where it supervises five regional districts. These are the Atlantic Region (England, Belgium, Norway, Iceland, Bermuda and the Caribbean); Germany; the Mediterranean region; Panama, and the Pacific Region.

Programming for gifted and talented students began as a pilot program for DODDS in August of 1979, and is expanding with sufficient trained teachers as consultants and resource teachers at identified school complexes worldwide. Teachers attending the Institute represent all five regions with most of them coming from Germany since that is the largest of the five regions.

After two weeks of intensive classroom activity, the teachers studied practical applications of organization and instruction with gifted and talented students. During their stay at Gould, the teachers participated in all phases of

In and About Bethel

Mrs. Phyllis Smith and Jason had Mrs. Smith's birthday dinner at Songo Pond with Norton and Phyllis Cross.

"Deck" and Dot Bowers of Melrose, Mass., Gladys and Norma Cross were Sunday evening dinner guests of "Wimpy" and Phyllis Cross.

Recent guests of Mr. and Mrs. Norton L. Cross and Stephen Cross at their cottage on Songo Pond have been Dennis and Dawn King and two children, "B.J." and Erin, of St. Leonard, Md.; Bradley and Joyce King of Prince Frederick, Md.; "Laney" Cross of Laconia, N. H., and Rosalie Coolidge of Bethel.

Miss Nancy Trivard of Portland, formerly of Bethel, has recently returned from a trip to the Catalonia province of Spain, including visits to Barcelona, Agua Blava, Montserrat and the Pyrenees Mountains. She and Sherman Altenburg were guests of Mr. and Mrs. William M. Altenburg of Windham, Maine, while in Agua Blava.

The learning process, joined in classroom activities and worked with the Gould students both in academics and in the activities program. They had the opportunity to observe such classes as beginning and advanced computers, total immersion physics, studio art, the humanities, print making, English as a second language, geometry and French literature.

Their contact with the 53 students and 12 faculty members at Gould was an exciting one, and the observation contributed to a highly valued learning experience for the group.

Walking With Jesus Christ

Prince, Potentate, Pauper — every living soul has an appointment with their creator—God—and, as the world seems to think, it will be on our own terms. Don't be fooled—God, Lord of Lords, King of Kings is a righteous God—and is love, all the way! It is absolutely impossible for him to be faced by sin, he abhors it.

Many say, I have tried to be good, I haven't done anything wrong, never hurt anybody, give my money to the church, I'm as good as the other person and I'm not worse than others—I was raised in a Christian home—etc.

Then there are some who say—How can God forgive me? I have done so much so bad—it's terrible for me even to remember. Join the club! The Bible says—Romans 3:10 "as it is written, There is not righteous, no, not one!" "For all have sinned, and come short of the Glory of God." vs. 23.

Let it be known that those of the first group are worse off because of their self-pride—ego, while the latter, being sorry, that is, show some form of repentance, will in all probability make their way to Christ more readily and will be the more astounded over being saved forgiven by God than they

could ever thought possible. Read of Paul—whose name was changed from Saul—Acts 7, 8, 9. He held the coats of the ones who stoned Stephen to death. But God changed him to become a great symbol of His mercy and love.

It happens every day — people heeding the Gospel of "Good News"—the Word of God—"But God commendeth his love toward us in that, while we were yet sinners, Christ died for us." Ro. 5:8—Ro. 6:23—"For the wages of sin is death, but the gift of God is eternal life through Jesus Christ, our Lord."

Those that ask God's forgiveness—want Christ to be the Lord of their lives are saved—"For with the heart man believeth unto righteousness and with the mouth confession is made unto salvation." Ro. 10:10—"and believe in our heart that God raised him from the dead." Ro. 10:9.

There is no distinction between Prince—Potentate or Pauper—for all will kneel before Christ who will render his judgement.

Blessed are they that do his commandments, that they may have the right to the tree of life, and may enter in through the gates into this city—"For outside are dogs and sorcerers; and fornicators and murderers, and idolaters and whosoever loveth and maketh a lie."

Fred Werner

BEAN HOLE BEAN FESTIVAL AT OXFORD FAIR GROUNDS SATURDAY, JULY 30

It won't be long now until people will arrive from miles around to sample those famous "Doc Hall" bean hole beans! Saturday, July 30, is the date for the 30th Annual Bean Hole Bean Festival sponsored by the Oxford Hills Chamber of Commerce.

More than 3,000 people are expected at the Oxford Fairgrounds for the Festival. While the bean hole beans (sold as dinners or in bulk containers) are the event's focal point, many additional activities are scheduled for the day and the festival promises fun for all ages. It's a real family affair.

The Bean Hole Bean Festival will kick off at 8:30 a. m. with a 12-team One Pitch Softball Tournament. Registration for the 5th Annual Woody Allen Road Race will also take place at 8:30 with the 2-mile race scheduled for 9 a. m. followed at 9:30 by the 10-kilometer race. From 10 a. m. - 6 p. m. the Oxford Hills Arts and Crafts Fair will be in full swing with many area crafts people registered to display their handi-crafts. An antique car parade, leaving White's Marina, Norway, at 10:30 that morning will culminate at the Fairgrounds with the cars being on display there.

There will be performances throughout the day by the YMCA gymnasts and the Kennebec Mariners Pipe and Drum Corps. Other attractions will include Max Pul-sifer and his Maine Nickelodeon and games run by the Norway-Paris Kiwanis Club.

A special treat while dinners are being served will be a 30-minute performance by The Hillsmen Barbershoppers beginning at 12:30 p. m. At 3 p. m. the "Swingin' Bears" will be presenting a colorful square dance exhibition for the enjoyment of all.

The Bean Hole Bean dinners will

FIREARM TRAINING TO BE REQUIRED FOR ME. HUNTERS BEGINNING IN 1986

Beginning in 1986, anyone wishing to hunt in Maine for the first time will have to have completed a firearms safety course.

Glen and Wildlife Commissioner Manuel said his department would comply with the new law, passed by the 111th Maine Legislature, by cooperating with private and public organizations to provide training programs for individuals in the safe handling of firearms.

The mandatory training program will be expanded from Maine's voluntary hunter training program currently being conducted by the department in cooperation with fish and game clubs, civic groups and some schools throughout the state. Instructors are trained by the department's hunter safety program directed by Safety Officer Gareth Anderson.

According to Anderson, the law requires that any person who applies for a firearms hunting license after 1985 must submit proof of having successfully completed a hunter safety course or evidence of having previously held an adult license to hunt with firearms in Maine or elsewhere in any year since 1976. In addition to courses provided by other states and provinces which are members of the North American Association of Hunter Safety Coordinators, Maine will also honor graduates of early National Rifle Association firearms

MEN'S SOFTBALL TEAMS TO ATTEND DISTRICT CHAMPIONSHIPS

Two of the area men's softball league teams, the Bethel Merchants and the Andover Loggers, are planning to enter the Class D District 7 Championship Tourney in Augusta Sunday, July 31, and have expressed their thanks to their sponsors, the Bethel merchants.

League standings as of July 25 are: Bethel Merchants, 13-3; Bryant Pond, 13-4; The Inn, 12-4; Andover Loggers, 11-6; Greenwood, 10-6; Sunday River Valley Rats, 7-10; Rowe Hill, 7-10; The Pits, 6-10; Andover Wood, 2-14; and Stray Cats, 1-15.

MT. ABRAM FISH AND GAME MET THURSDAY, JULY 21

Mount Abram Fish and Game Association met at Bethel United Methodist Church Thursday evening, July 21, for a pot luck supper, followed by a business meeting conducted by Richard Stevens. The reports of the secretary and treasurer were read and accepted. A membership drive is now in progress and new members would be welcomed. The program was a very interesting nature film.

The next meeting will be held Thursday, Aug. 18, a picnic at the Locke Mills picnic area. Members attending are requested to take lawn chairs, their own food and utensils.

A lot of effort by many people has gone into the planning and coordination of the 1983 Bean Hole Festival and this year's festival is expected to be the biggest and best one ever. It's a unique event and residents and visitors alike are encouraged to join in the fun and to sample the delicious baked beans.

Children will be permitted to purchase a juvenile hunting license without completing a gun safety course until the age of 16, since they may hunt only with a licensed adult.

Persons who are unable to prove they have hunted or passed a course will be permitted to sign an affidavit testifying they have held the required certificate or license within the time period, since Jan. 1, 1976.

Anderson suggests that, although the new law will not take effect until 1986, "it is to a young person's advantage to seize the first opportunity to enroll in a hunter safety course as soon as possible in anticipation of future high demand for the training."

NOTES FROM THE
WOODSTOCK HISTORICAL SOC.

Many achievements of members of any organization often go unrecognized. This past month has proved the dedication of many, especially Earle and Louisa Noyes, who have worked so hard to assist in the financial well-being of the Woodstock Historical Society. Also, Deke and Sandy Brooks, who own a camp in Woodstock and so often travel to Bryant Pond with friends from Portland to participate in events the organization sponsors.

Society products and a flea market sale continue at the Museum through the summer months. Supporters of the Society have been most generous in their financial contributions. The next Society meeting will feature a cook out at the home of Mr. and Mrs. LaForest Twitchell, Kay Billings and Dorothea Hooper.

Along with the Bethel Society, Woodstock Historical Society acknowledges a debt to Mrs. Beatrice Comad, who so often supported Society activities and the Museum in particular in the past. Dante drew inspiration from one Beatrice, and we have been privileged to know our own. The Society owes an ongoing debt to all those who have enabled it to grow since its inception. They are somehow present still and we try to look forward to the future with their examples in mind.

Safety Tip of the Week—

Basic swimming safety is practical knowledge for everyone. Swimming lessons in Woodstock, Greenwood and West Paris begin Aug. 1 at the head of Lake Christy in Bryant Pond and are an excellent way to learn how to swim. Diving should be done cautiously unless the water is well known. Submerged rocks can cause a neck injury that can paralyze a person for life. So either do shallow dives in unknown water or don't dive head first.

are opposed to this law, as it presently stands, as they feel it will create a great deal of extra work for municipal officials and an expense to the municipalities. They feel that it is just another example of the Legislature passing on work and expense to municipalities which should be borne by the State. S.A.D. 44 ATHLETIC PRACTICES
STARTING IN MID-AUGUST

With fall athletic practices starting in mid-August, Telstar student athletes will soon receive a letter regarding physical examinations in S. A. D. #44.

Since Fall 1982, athletic physical examinations have been provided by the school district. Student-athletes however, will still be required to have a complete physical examination in order to qualify for participation. The complete physical examination requirement can be met by having had a physical examination completed by a family physician, or by having a physical examination completed by Dr. Handman, who will be offering athletic physical examinations at Telstar.

The cost of the athletic physical examination at Telstar will be \$8.00. These athletic physical examinations will be offered at Telstar on Aug. 2 from 9 a. m. until 12 noon and from 6 p. m. until 8 p. m. on Aug. 3, 1983. Students desiring an athletic physical examination at Telstar Regional High School on either Aug. 2 or Aug. 3 should call 824-2136 to arrange an appointment. Please note that these are the only dates that athletic physical examinations will be offered in S. A. D. 44 in the fall, and that students must have a physical examination completed before participating in any contests.

Students desiring forms for physical examinations should contact the Telstar Regional High School Office, 824-2136.

Selectmen Stephen Wight and Lee Swan met with Fergus Lee of Androscoggin Valley Council of Governments, Thursday, July 21, to examine possible sites for a septic tank disposal area. Several areas were viewed and further examinations will be made to see if any of them are acceptable to the D.E.P. A site which had been under consideration and had already been approved. The Selectmen met Friday morning. A warrant was prepared to play current bills. The septic tank disposal area was discussed. Also discussed was L.D.1781, an act passed by the Legislature to change the method of funding for Forest Fire Control. Under this act local Assessors send out letters, and forms to be filled out and returned to all property owners who have 100 acres or more of forest land in each parcel, also make a report to the State of an estimate of the number of parcels containing one acre or more of protective area, woodland, blueberry lands, etc., and all parcels adjoining Town Lines. Currently there are 61 landowners in Newry with parcels of 100 acres or more. Landowners will be assessed a tax by the State to help defray the cost of Forest Fire Control. Previously this cost has been paid, mostly, by Unorganized Territories and adjoining towns in the Maine Forestry District. The Selectmen

are opposed to this law, as it presently stands, as they feel it will create a great deal of extra work for municipal officials and an expense to the municipalities. They feel that it is just another example of the Legislature passing on work and expense to municipalities which should be borne by the State. It was voted to file claims with the Small Claims Court against two taxpayers who have not paid their 1982 Personal Property Tax. One of these claims is for \$120 and one for \$240.

— Louise Loring, Corres. —

The days of summer are passing much too quickly. A month ago the evenings began to grow shorter, and it seems as if even the days are speeding by at an incredible rate. No more than the strawberries had passed us by, than the raspberries came upon us in abundance, and now the blueberries are dotted about the terrain in vivid blue clusters. The animal world, is proudly presenting its young to us, as evidenced this past week, by the surprise greening of a small baby raccoon, and the advent, quite unexpectedly of a tiny little skunk, of what gender, one has to guess—but he (or she) advanced rather boldly an evening last week all by his lonesome from underneath the lilac bushes, scampering across the driveway into the sumac bushes. A skunk by any other name, would certainly be cunning, and this youngster was quite entertaining. He landed like a large mobile fluff ball—just his pointed black nose and beady eyes pointing downward as if to assure me, this was not a figment of my imagination. The "stripe" appeared to be 3" or more wide, and gave the illusion of being just a huge powder puff—so downy and soft appearing. In fact, white was the dominant color—very little traces of black, as it brazenly appeared in broad daylight upon the Loring campus. Other visitors were, one evening, Mrs. Coon and one of her tiny offspring, investigating no doubt the new strawberry bed—which my husband has been so carefully nurturing. One day, at the bird bath, a baby grackle, sat prettily perched upon its rim, chatting noisily, and moving his wings about, while the parents were scurrying about, trying to locate a delicious morsel for their adored one. Finding some rather hard chunks of old "store bread", scattered about the landscape, Mother approached the opposite end of the shallow basin, with quite a sizable chunk in her beak. The little youngster was very impressed, and fluttered about excitedly—but Mother appeared to be pondering, if such a large "hard-as-a-rock chunk," would be dangerous to impart to her wee one. Thinking quickly, as the chattering became more incessant, she bent her head towards the water, and to my amazement "dunked" the bread several times, before offering it to her young one, until it became as "pap" and soft enough for her baby. This procedure was repeated for a good part of the afternoon—until all the "chunks" had been softened and devoured by the little fellow. Quite a testimony, of the wisdom of nature, its devotion and protection of their youngsters, and makes one wonder why some human mothers, are not as attentive, does it not?

Gardens are flourishing and the weed crop exceeds itself. About the area, day lilies are in bloom, and if you're thinking about dried flower arrangements for the winter, you had best be gathering them and hanging them about. As the saying goes "Gather ye the rosebuds — while they may." For summer is slowly ending.

Sent in by Viva Whitman:

Another week gone by and we have been as busy as beavers. Peggy headed out bright and early to do wash, then she and Russell picked raspberries while I started on the peas. I guess I'm getting slow so they helped pick the last of the peas, which I froze for the winter.

In the afternoon, Peggy took Russell to Norway to the doctors and he found he had to take it easy as he had pulled a muscle in his chest. We had planned to go to Franklin Grange, but didn't after all.

We were really busy again on Tuesday. Peggy came and picked greens for me to freeze; raspberries needed picking again so she went at that while I tended the greens. Then we had to go to Fryeburg where Russell and I both saw a doctor. After we got home, Peggy picked more greens and I got them ready for the freezer.

Wednesday, I had to go to town for a little while, Peggy had an appointment at the garage, so I picked berries. Sister Laura arrived and saw what we were up to so pitched in to help. Peggy took over picking berries and Laura and I fixed beet greens for the freezer. Russell and I like a mixture of cabbage, celery and carrots, so after supper I got the food processor out and made up a batch of salad for us to have as I was afraid I wouldn't have time the following day.

Did a little cooking the next forenoon and then helped pick raspberries. Edwitt Yates came down to help to do some of the things Russell wanted done but couldn't do himself. We got the peas picked over again and taken care of.

of relatives. Many of them we didn't know and vice versa, but it is fun to get acquainted and visit with all who come. The reunion was held at Warren P. Rowe and wife Marion's home. We enjoyed the day very much and always look forward to the next year when we can all meet again. We miss those who aren't with us any more but know they would be glad that we are carrying on the old tradition of getting the family together. We were a little tired when we got home, but have a lot to remember, that is, if we can remember. I do well remembering faces but not names. Guess it must be a sign I'm getting old, though Mother could remember names as well as faces. Just wish I could do as well as she did.

I must tell you before I leave this for another chore, I had a lot of fun the other day watching the birds taking baths in the puddle left by the rain. They really had a splendid time splashing around in the water. Wish sometimes we had a bird bath in the yard so we could see them go through their ritual more often. Nature is most pleasant to watch.

Got up Sunday morning, put up a picnic lunch and middle of the forenoon we headed for New Gloucester for a family reunion. Darmita Yates and daughter Eva followed us down, as she didn't know the way. It has been a number of years since any of us had been down there, but was so glad we went. There were over a 100 of us who attended and a lot that didn't come so you see there are a lot

BETHEL HISTORICAL SOCIETY TO MEET THURSDAY, AUG. 4

All members and friends of the Bethel Historical Society are reminded of the monthly meeting to be held Thursday, Aug. 4, in the meeting room of the Dr. Moses Mason House beginning at 7:30 p. m. Featured speaker for the evening will be Dr. Joel Eastman, Chairman, Department of History, University of Southern Maine, who will make a presentation on the Katahdin Iron Works. Iron ore was discovered in what is today Township T6, R9 by Moses Greenleaf, a famous Maine geographer, on Ore Mountain in 1943. Two years later, Katahdin Iron Works was formed and operated continuously except for the nine years between 1865 and 1873 until 1890. Annual production averaged 2,000 tons of raw iron.

From 1872 to 1890, Katahdin Iron Works employed 200 workers and owned several homes, two large boarding houses, a town hall, a school, a post office, a company store, a photo salon and two farms to produce hay for the horses. Fourteen charcoal kilns provided fuel for the blast furnace.

A railroad was built to Katahdin Iron Works from Bangor in 1882. Ten thousand cords of wood were needed by the community each year. Competition from the Mesabi Range ore fields in Minnesota ended the profitability of K.I.W.

Eastman, a native of Bridgton is a graduate of the University of Maine at Orono and holds a Ph.D. from Florida State University. He has lectured and written widely on Maine history.

Anyone interested is cordially invited to attend.

TRAVELERS REMINDED OF MAINE DRUNK DRIVING LAW

Travelers in Maine are reminded by the State Police how Maine's Drunk Driving Law could affect them—if they drink.

"A motorist criminally convicted for Operating Under the Influence (O-U-I) in Maine faces a minimum of 48 consecutive hours in jail, minimum \$350 fine and minimum loss of license for 90 days. The law is tough because none of the penalties can be suspended," said Col. Allan H. Weeks, chief of the Maine State Police.

Weeks said loss of license can be up to one year. In addition, a motorist Operating Under the Influence will automatically be charged with criminal O-U-I if he/she was driving more than 80 mph in excess of the speed limit or attempting to elude a police officer which resulted in the prosecution for O-U-I.

"The Maine State Police are concerned about the needless serious injuries and death on our roads resulting from inconsiderate motorists who have been drinking beer, wine or liquor," said Weeks.

The state police chief said Troopers have pre-arrest screening devices in their possession that allows for a prompt breath alcohol test on suspected motorists. In addition, specially trained officers cruise about the State in Intoxilizer-equipped Breath Alcohol Testing vans known as "BAT-mobiles".

"The success of Maine's tough drunk driving law has been the voluntary compliance of motorists not driving after drinking, our enforcement effort is aimed at those who break the peoples' life saving law."

Dyke Field in accordance with the "Airport Master Plan" (1982). Committee efforts were continued at the meeting to develop an application for state and federal monies to fund future airport expansion projects and development of plans for a commercial complex at the airport. Subcommittees were formed to pursue these projects before proposing them for the Selectmen's approval.

From the Editor**Sidewalks Are For Walking**

Quite possibly it isn't any more prevalent than it has been in years past, but it appears to many that the practice of riding bicycles on sidewalks is more in "fashion" this summer. This creates a danger to pedestrians who seek to utilize a sidewalk for its intended purpose.

The riding of bicycles on sidewalks creates an especial hazard on middle Main St. since the opening of the Bethel House during the past year. The residents of this facility, as do others, deserve an opportunity to use the sidewalks of the village without the added distraction of looking out for bike riders.

In Maine, unless a community has ordinances creating special rules, bicycles are subject to the same traffic rules as motorized vehicles. Like motorized vehicles, cars, trucks, mopeds, motorcycles, etc., bicycles should be operated on the right hand side of the roadway. Unfortunately some bicyclists operate as if they were pedestrians, on the left side of the road. Bethel has few enough sidewalks, so for safety's sake where they exist pedestrians should use them, and bicyclists should not.

However, the measure was defeated, according to a publication of the U. S. Department of Labor.

PARSONS ATTENDS RIVER SAFETY WORKSHOP

Jeff Parsons, resident of Bethel and Course Director for the Outward Bound program in Newry, recently attended a River Safety Workshop. The two day seminar included classroom and hands-on instruction in accident prevention, equipment, and practical methods of rescuing trapped or pinned canoeists or kayakers. The Warden Service of the Inland Fish and Wildlife Department and Eastern River Expeditions, an outdoor center based in Greenville, co-sponsored the program in an effort to upgrade safety skills on Maine's rivers, since canoeing and kayaking are becoming more and more popular forms of recreation. "I was familiar with some of the techniques and others were new," said Mr. Parsons, "and the practice time is always valuable."

Safety Tip of the Week

—Two Second Rule
To avoid following another vehicle too closely, remember to use the two second rule. As the vehicle directly ahead of you passes a land mark (Pole sign or anything similar) count 1001, 1002. If you reach that same land mark before you reach 1002 you are following too close. This rule should be followed by all speeds—Following the two second rule helps save rear end collisions as well as property damage and repairs. Do Not be a Tailgater.
